

CVManager - server web application designed to manage resumes and vacancies. It is developed by Elinext Group to facilitate the tasks of recruitment. CVManager provides management tools via a browser interface.

The screenshot shows the CVManager web application interface. The browser address bar displays 'http://localhost:13146/CVManager/Search.aspx'. The page title is 'Search Candidates'. The interface includes a navigation menu with options: Search, My Candidates, Add Profile, Users, Vacancies, and Administration. A search bar is present with a 'Name part:' input field and 'Search' and 'Advanced search' buttons. Below the search bar, there are buttons for 'Add selected to group...', 'Add', 'Select Vacancy', 'Assign Candidates', 'Mass mailing', and 'Delete'. The main content area displays a table of search results with the following columns: Name, Phone, Email, Age, Submitted, Comments, and Attachment. The table contains 20 rows of candidate data. At the bottom of the page, it indicates 'Candidates found: 500' and 'Candidates selected: 0'.

CVManager must be installed on the MS Windows server. The installation of CVManager is common for any windows application and has a user-friendly interface.

With CVMManager you can adapt the structure of the resume to fit your needs. You can change patterns of skills of candidates and a set of foreign languages. A resume can be added by candidates, as well as by you. By using CVMManager you can search among the available resumes using different parameters.
